## EDUCATION

**Dr. D.Y. Patil college of Engineering**

*Bachelor of Technology in Information Technology, CGPA : 9.3*

**Pune, Maharashtra**

*Aug 2018–Jul 2022*

## EXPERIENCE

**Frontend Developer**

**APR 2025 - Present**

*Neso Academy*

*Noida*

- Led the end-to-end development of a **scalable e-learning platform**, owning **architecture**, **development**, **performance optimization**, and **security**.
- Built a comprehensive user platform including **activity dashboard** (recently watched, progress, transactions), **quiz**, **certification engine** and **bookmarks**.
- Improved application performance by **35%** and reduced initial load by **25%** via **SSR/SSG**, **code splitting**, **lazy loading**, and caching.
- Engineered a dual **course purchase system** — **coin-based** and **Fuel pack** with full **transaction tracking**, **profile management**, and personalized content recommendations.
- Achieved a **95 SEO** score by optimizing **Core Web Vitals**, **accessibility**, and page rendering strategies and achieving less than **1s FCP**.
- Integrated **VideoCipher DRM** service for secure video delivery, **encrypted streaming**, **watermarking** and access control.

**Frontend Developer**

**OCT 2024 - MAR 2025**

*Chainscore Labs*

*Pune*

- Built a **crypto exchange platform** and scaled core **frontend modules**, delivering a **responsive** and **dynamic user experience** across the platform.
- Developed key features including **Top Gainers/Losers**, **Watchlist** (favorites), **coin swapping**, **deposit workflows**, and **2FA** authentication flows.
- Integrated real-time market data and **dynamic pricing**, improving platform interactivity and user engagement. Resolved **150+ QA issues**, **enhancing product stability** and production readiness.

**Associate software**

**JAN 2023 - AUG 2024**

*Intelliswift software*

*Pune*

- Developed responsive UI components for **HR management** platform using **React**, **SCSS**, **MUI**, and **Redux Toolkit** focusing on **employee onboarding**, **profile management**, and **certification workflows**.
- Built customizable **certificate template system** enabling HR to create, customize, and share certificates with image uploads, dynamic text fields, and company-wide notifications
- Implemented **employee anniversary** feature with interactive **profile pages** and peer recognition functionality
- Wrote **unit tests** using **Jest** to ensure component reliability and maintain code quality across the application.

## PROJECTS

**AI Car MarketPlace** | *Next.js, Typescript, Clerk, Tailwind, Shadcn* |

[\[GitHub\]](#)

- Developing an AI-powered car marketplace using **Next.js**, **TypeScript**, **Tailwind CSS**, Supabase (database), and **Clerk** (authentication with role-based access). Implemented **separate admin** and **customer dashboards** with role-based permissions to manage **listings and rentals**.
- Integrated **GPT API** to extract car metadata from uploaded images or user-provided details, enabling automated **vehicle insights** and classification.
- Integrated car listing, rental **availability management**, and user-upload workflows; admins can control car availability and rental status through a dedicated interface.

## SKILLS

- **Languages:** HTML, CSS, Javascript, Typescript, C++, JAVA
- **Libraries and Framework:** Next.js, ReactJs, Redux Toolkit, Jest, Tailwind CSS, SCSS
- **Others:** Git/GitHub, Postman, Linux, ES6+, Firebase, REST API, Vercel, Netlify, debugging, Figma, Shadcn, JIRA

## CERTIFICATIONS & ACHIEVEMENT

- **Meta** Front-End Developer Professional Certificate.
- **LeetCode** Rating: **1450+**, Solved 350+ DSA problems.
